WHOLESALE PRICE LIST

Fall	1949
Spring	1950

IMPORTANT NOTICE

This is a wholesale price list and for people who are engaged in nursery and floral trades only.

As we do not publish a retail price list this year, we ask our retail customers (those who are not engaged in nursery or floral trades) to find their prices from this catalogue. Please

ADD 20%

to the list prices.

Even with this addition, our present prices are lower than the prices of former years which were listed in our retail catalogues.

TERMS OF SALE

CONDITIONS—We accept all orders on condition that they shall be void should injury beyond our control befall the stock. All quotations are subject to prior sale of stock. Prices listed cancel all previous quotations.

PRICES—Five and fifty of one variety and size at the 10 and 100 rate respectively.

CASH & CARRY—On carload or truckload orders where crating is not necessary, we offer a 20% discount from all B&B plants including grafted Camellias, and Azaleas, except Azalea liners. This discount does not apply to any bare-root stock.

PAYMENTS—Cash with order. C.O.D. shipments will be made only when a twenty-five per cent deposit accompanies order.

CLAIMS—All claims must be made immediately upon receipt of stock. We shall be glad to adjust any mistake made by us, but in no case will our liability exceed the purchase price.

TRANSPORTATION—All prices F.O.B. Mobile. We make no charge for delivery to carrier, but our liability ceases when goods are turned over to carrier, and risks and cost of transportation belong to purchaser.

CAMELLIA JAPONICAS

ABBREVIATIONS: E—Early; M—Midseason;
L—Late (time of blooming).

B.R., Bare-rooted; B&B, Balled and Burlapped.

While a good many varieties of 2¼" pot Camellias are ready for immediate shipment, there are a good many rarer varieties in pots that will not be ready until this winter. Some rooted cuttings are rooted now, but majority of them will be ready late in fall or winter.

Lining out Camellias which are excellent quality and value, can be shipped as soon as they become dormant. We have some varieties by the thousands, but a rather limited supply of others and we urge you to place your order early, to avoid disappointment.

C. M. WILSON (M)

Out of the hundreds of varieties of Camellias which have been introduced throughout the years, you will find that Chandleri Elegance continues to hold its place and stand out above all others, when you disregard newness or rareness of a variety. C. M. Wilson is a flesh pink sport of Chandleri Elegance, retaining all the merits of the mother plant and rising to new heights of rareness by virtue of being an exquisite hue which is truly breathtaking. Silvery pink fades into blush and white towards the edges of the petals. The contrast of golden yellow anthers with delicate flesh pink petals and the formation are more of the highly prized rare tree peony flower than of the Camellia.

All introducers of new varieties consider their creations the best and recommend them as such, but we leave to you and your customers, the judgment of the value of this charming new coloring of one of the oldest standbys. Our observation of hundreds of these flowers in bloom did not reveal a single one which reverted back to its parents.

Do not fail to stock up on this outstanding variety to supply your customers' demands, which will undoubtedly increase from year to year, for many years to come. Look for this sensational flower at your Camellia Shows this fall and winter.

Following prices are net, without discount of any sort, and we must limit each customer to not more than five plants.

AZALEA INDICAS

BRILLIANT

Deep watermelon red, deeper than Pride of Mobile. Fast, compact grower with small leaves. Liners only.

CRITERION

Coloring is similar to Herme Camellia. Compact, slow grower and late bloomer. Liners only.

ELEGANS

Clear pink, early. Fast, upright grower.

FIELDER'S WHITE

Pure white of good size flowers at rather early part of season. Compact and profuse bloomer. One of the very best.

FORMOSA

Big, purplish pink flowers of mid-season. Very fast grower with large, dark leaves.

INDICA ALBA

Pure white flower of mid-season. Upright grower when young. Very hardy, withstanding the winter of New Jersey.

PHOENICIA

Purplish pink flowers just after Formosa. Can withstand more heat and neglect than any other variety.

PRIDE OF DORKING

Deepest bright red flowers very late in season. One of the best. Can supply only liners.

PRIDE OF MOBILE

Watermelon red of good size in mid-season. Fast grower and profuse bloomer.

PRINCE OF ORANGE

Deep orange red of a little later than mid-season. Low spreading grower. Liners only.

SALMON (Lawsol)

Salmon pink, mid-season, profuse bloomer. Very hardy.

HARDY JAPANESE AZALEAS

This group of Azaleas can stand good deal of cold weather, being hardier than Indica or Kurume, and is recommended for planting in northern belts of South States, but they will also do well on Gulf Coast.

KAEMPFERI

Pink to orange red flowers of rather late season. Does well in lower South, but also hardy in New England States.

MACRANTHA, PINK

Medium size, pink flowers bloom in May around Mobile. Quite compact grower with small shiny leaves, making very attractive, low-growing shrub even when there are no flowers.

MACRANTHA, ORANGE

Orange red flowers of above variety. These Macrantha can stand more hot sun and dry weather, as well as cold, far better than Indicas.

MAXWELL

Large, white flowers with pinkish throat. Fast, upright grower.

PRICES ARE SAME AS INDICAS.

KURUME AZALEAS

CHRISTMAS CHEER

Small, deep crimson, hose-in-hose flowers. Compact grower.

CORAL BELL

Coral pink, hose-in-hose very profuse bloomer, is probably the most popular variety of all Kurume. Fine for forcing.

HEXE (Firefly)

Large, bright scarlet, hose-in-hose of compact grower.

HINO-CRIMSON

Similar to Hinodegiri with deeper crimson flowers which will not fade in sun, and said to be hardier than Hinodegiri. Slow, compact grower. This is a new variety and because of limited supply, the prices will be 50% higher than listed prices.

HINODEGIRI

Deep red, single flowers of good size. Very hardy and well adapted for landscape planting in northern sections of the South, as well as in the Eastern states.

HORTENSIA

Large, hose-in-hose, soft pink flowers are produced in great profusion.

PINK PEARL

Large, beautiful pink of hose-in-hose, borne in large clusters.

SALMON BEAUTY

Good size, hose-in-hose, deep salmon color of outstanding beauty.

SALMON QUEEN

Single salmon flowers are a little lighter than Salmon Beauty. Very good grower.

SNOW

Pure white, hose-in-hose flowers, with dark green glossy foliage.
